AARTHI SHREE CHANDIRAN

Azure Certified IT Professional | Cloud Infrastructure & IT Operations
Berlin, Germany | +49 176 74199920 | aarthishreechandiran@gmail.com
linkedin.com/in/aarthi-shree-chandiran|aarthi-shree-chandiran.github.io

PROFESSIONAL SUMMARY

Azure Certified IT professional with hands-on experience in cloud infrastructure, system troubleshooting, and software testing within SLA-driven environments. Skilled in Microsoft Azure services including Virtual Machines, Virtual Networks, Network Security Groups, RBAC, monitoring, and backup solutions. Strong background in incident resolution, system validation, and automation testing using Selenium. Currently preparing for Microsoft Azure Administrator (AZ-104) and seeking opportunities in Azure Administration, Cloud Infrastructure, or IT Operations roles in Germany.

TECHNICAL SKILLS

Cloud: Microsoft Azure, Virtual Machines, Virtual Networks (VNet), Subnets, Network Security Groups (NSG), RBAC, Azure Monitor, Azure Backup
Systems: Linux (Ubuntu), Windows, Troubleshooting, Incident Management, System Monitoring
Tools: Selenium, Git, GitHub, GitHub Actions, Jira, SQL

PROFESSIONAL EXPERIENCE

Quality Assurance Associate – Picnic GmbH, Berlin **2025**

- Performed system validation and testing to ensure operational stability
- Identified workflow issues and supported faster incident resolution
- Collaborated with cross-functional teams to maintain SLA compliance

Warehouse Operations Associate, Amazon, Berlin **2024 – 2025**

- Worked in a high-performance SLA-driven operational environment
- Reported system-related workflow issues impacting efficiency
- Maintained high accuracy and productivity under strict deadlines

Working Student, BHT University, Berlin **2023 – 2024**

- Executed 500+ test cases validating system functionality
- Supported debugging and system improvements
- Maintained documentation and defect tracking

Software Tester, Hexaware Technologies, India **2022 – 2023**

- Developed 200+ Selenium automation scripts
- Increased test coverage by 40% through automation optimization
- Performed functional and regression testing to ensure software quality

PROJECTS

Azure Infrastructure Deployment
Deployed Azure Virtual Machines within a secure Virtual Network architecture using subnets and Network Security Groups. Implemented RBAC for secure resource management and monitored resources using Azure Monitor.

Azure Monitoring & Backup
Configured Azure Monitor for resource health monitoring and implemented backup and recovery processes using Azure Backup.

Selenium Automation Framework
Developed reusable Selenium automation scripts for functional and regression testing to improve testing efficiency and reduce manual effort.

EDUCATION

Master of Science (M.Sc.) IT Management – Berlin School of Business and Innovation **2022-2024**
Bachelor of Computer Science and Engineering – Anna University **2017-2021**

CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900)
Microsoft Azure Administrator (AZ-104) — Exam scheduled March 2026

LANGUAGES & WORK AUTHORIZATION

- English (B2) | German (A2) | Tamil (Native) | Malayalam (Conversational) | Hindi (Basic)
- Eligible to work in Germany (Jobseeker Visa valid until August 2026)
